

Helpline House is hiring a Social Work Supervisor (job description below). This position must be able to clinically supervise staff with Associate level licenses, as well as the Helpline House social work staff. We would also like this position to provide therapy to a very small caseload, if possible.

We have the position posted as .8 FTE but can be flexible. This could be an ideal hybrid position between joining Helpline House staff and continuing private practice, or simply be a home for someone wanting to provide clinical supervision as well as individual therapy.

Benefits are offered to anyone working 20 hours or more - medical/dental, paid sick/vacation, retirement, etc.

Please contact Maria Metzler at mmetzler@helplinehouse.org with any questions. Please pass this along widely to those who might be interested or know others who might be interested.
